

# EASTERN DISTRICT MEETING

The Association on Mine Resident

Engineers at the Eastern District will host the first meeting of the year at Inyoni Dam, Two Rivers Platinum Mine on the 16th of February 2024 at 08:00.

**16 FEBRUARY 2024**

Gas safety is critical in our industry and can be fatal if not handled correctly. A presentation that entails learning from previous gas explosion incidents will be shared.

Looking after the health of our workforce is imperative and as engineers, we are finding ways of improving the air quality in our Operations. This can be achieved through the fitment of DPM filters, however, this comes with its own unique challenges. A presentation on DPM filtration and associated incidents will be shared.

**RSVP:** Melanie van der Mescht by the 07th of February 2024
